Skills

JavaScript, React, Redux, HTML5, CSS3, Ruby, Ruby on Rails, Mongoose, MongoDB, Node.js, SQL, SQLite3, PostgreSQL, Webpack, jQuery, Git, Heroku

Projects

Animezon   live site | github

JavaScript , React / Redux , Ruby on Rails , PostgreSQL , CSS3 , AWS , Heroku , Webpack

A full stack clone of Amazon that focuses on the commerce of anime and anime related merchandise and manga.

- Splash page with an automatic photo slider with a hover effect that displays an active sneak peak.
- Features an interactive add to cart and checkout mvp.
- Has an add review feature that allows for the user to leave reviews for the product.

Paper Plane   live site | github

HTML5 , JavaScript , CSS3 , Webpack, Firebase

A simple obstacle dodging video game, with the goal to survive as long as possible and compete against others.

- Uses Firebase to host a live changing scoreboard.
- Creates and increases the amount of obstacles as the player progresses.
- A playable paper plane that moves left and right with the ability to change to a random paper plane

PAQ   live site | github

HTML5 , JavaScript , CSS3 , MongoDB, Express.js, Axios, Twilio API, Weather API, React

A MERN single-page application where users can send packages from Minneapolis to Mexico.

- Utilized MongoDB and Express.js to build backend database for user and owner data
- Adopted Twilio API to send text messages to customers once their deliveries have been made.
- Used google weather API to notify the customers of the current weather in Mexico city and Minneapolis.

Experience

Food Service | October 2017 - February 2019

Shabuya Hot Pot Restaurant

- Flexible and cooperative mindset that works with others to service and help customers.
- Experienced server that assisted in training new food servers, food runners, hosts, and bartenders.
- Exhibited excellent work ethic and time management which resulted in an average of $300 in tips per night.

Care Homes | June 2017 - October 2017

Penny's Guest Home

- Created and organized care home activities for 30+ residents, focused on recreational exercise and activities.
- Developed organizational, management, and hospitality skills which helped in helping residential patients.
